EXPERIENCE

HORIZAM | iOS Developer
July 2020 – June 2021 | Lahore, Pakistan
- Hired as an intern with no experience in iOS Mobile Application Development.
- Maximized applications' efficiency, data quality, scope, and flexibility.
- Managed time-sensitive updates, including content changes and database upgrades.
- Planned, wrote, and debugged applications with complete accuracy
- Extensively used GIT for version controlling and regularly pushed the code to GitHub.
- Leaded and collaborated with other teams on every project that company had.

FREELANCE | Full Stack Developer
Feb 2019 - Present
- Working on Front end by using React JS, Material UI, JavaScript, Typescript and implemented latest ES6 features.
- Daily programming in server side by using Node JS and Express JS.

PROJECTS

TAP-O | Full-Stack Developer | iOS Developer
Developed this amazing NFC Digital business card app for client. Designed and developed efficient and maintainable application according to the business objectives and needs of the client.
Website: https://tap-o.com
App Store: https://apps.apple.com/pk/app/tap-o/id1587329260

LIVEWAVES | iOS Developer
Worked as an iOS developer on this project and improved performance by 50 percent. Developed using UIKit, Firebase for chat, Red5pro for video streaming, and REST API's. Planed a redesign and executed it while giving regular updates. Worked closely with website management / development team for writing code for new features.
App Store: https://apps.apple.com/ae/app/livewaves/id1519452753

PICK4DELIVERY | iOS Developer
Worked as an iOS developer on this project. Developed using UIKit and implemented Core Data, Payment gateways (Stripe, Paystack). Aadded client side cart handling to enhance user experience.
App Store: https://apps.apple.com/us/app/pic4delivery/id1525239178

POS | Full-Stack Developer
Developed custom POS system for local client using Django web framework and PostgreSQL as a database. Deployed this web app on Digital Ocean droplet.
